Issue No. 119/11

Latest Update on Yemen

The following information was provided by Kanoo Shipping, Yemen.

Situation in Yemen:

Protests and rallies continue around the country in most cities and towns, but these are limited to certain areas and currently there is no disruption to the everyday lives of the residents.

Exact status of communication:

All channels of communication are fully open in Yemen. Telephone/fax Lines, internet connectivity and mobile services are all working normally without any disruption.

Travel to and out of Yemen:

Travel to and out of Yemen remains normal. All flights are on schedule, both domestic and International.

All airports and public facilities are functioning normally.

However, overland transport between Aden and Sana'a is recommended to be avoided. Instead air travel is recommended. Seamen embarking and disembarking at Yemen will face no problems at either the seaport or the international airport. However, we advise against venturing in the main cities during night time. The crew should at all times avoid areas where rallies, sit – ins, protests are taking place, which usually occur at the site of prominent landmarks, government buildings and main roads / roundabouts.

Ports:

Aden port is not functioning at full capacity nowadays and some of the traffic is diverted to Hodeidah port. Truck/trailer movements inside the city are restricted owing to the protests, hence, the movement of cargo out of the port is slower.
